ALPINE SPACE NEWSLETTER N° 2

THE ALPINE SPACE SO FAR ...

The CI INTERREG IIIB Alpine Space is publishing its second Newsletter in the period of evaluation of proposals that were submitted. Several events and meetings follow until the final conclusion of the process. The JTS Team is here to support you with information and do not hesitate to stepping forward to contact us.

ENCOURAGING TRANS-NATIONAL PARTNERSHIPS

The Joint Technical Secretariat (JTS) is here to help developing trans-national partnerships and support the applicants to implement their project ideas. Full information material is available directly from the Joint Technical Secretariat (jts@alpinespace.org) and the Alpine Space Web Site (<http://www.alpinespace.org/>).

TRANS - NATIONAL INFORMATION

END OF 1ST CALL 2ND SUBMISSION PERIOD

We are informing you that on 19th December 2002, the 1st call 2nd submission period, has been closed and 41 project proposals have been submitted. It is expected that then next call for the proposals will be launched between May-June 2003.

NEXT MEETING OF THE STEERING COMMITTEE IN GENEVA

On 9th-10th April 2003, a Steering Committee Meeting will be held in Geneva, where decisions about the project selection of the 1st call 2nd submission period will be made.

NEW MANUAL

A new manual for the 1st level control has been submitted from the Managing Authority (MA) and can be downloaded at <http://www.alpinespace.org/documents/149.doc>

ENCOURAGING TRANS-NATIONAL PROGRAMME-TO-PROGRAMME CO-OPERATION

With good contact from JTS to different Programmes and with its elaboration, several Programmes are supporting the Project Partner Community with special fields of research and its application, that are supportive to the CI Programmes, support the relevant EU documentation, in particularly the regional planning and development policies, the implementation of Agenda 21 and sustainability, etc. Since making the first steps into helping Project Partners within the CI INTERREG IIIB Alpine Space with other Programmes' support, you are encouraged to send partnership proposals to the JTS Team. This helps not just preserving the

funds, but also for the information exchange that such programmes exist.

We would like to inform you about two programmes within Geographic Information Systems (GIS), that support project partners with their products and services for free or on a discounted basis.

- Intergraph GeoMedia Registered Research Laboratories Membership for free of charge - free Intergraph software, services, etc. [[read more](#)] or contact [Mrs. McKee](#)
- Conservation GIS [[read more](#)] or contact [Mr. Convis Jr.](#)

REPRESENTATION OF RESULTS OF THE 1ST CALL 1ST SUBMISSION PERIOD

We have published an interactive map that serves as an information resource for all the approved projects with corresponding project partners, with abstracts and the size of the project. You can view the map at <http://www.alpinespace.org/projects/HTML/> or at <http://www.alpinespace.org/>, under section "Projects", "Approved projects", "Approved projects 1st call - Map".

INFORMATION and PUBLICITY

We are informing you that you are welcome for inquires at JTS if needing more information about the Programme when publishing an article about the the CI INTERREG IIIB Alpine Space Programme.

Soon the CI INTERREG IIIB Alpine Space Programme will be presented for its activity and success not only at the European level, but also at US Conferences in California and in professional international journals. You are welcome to share your success with us and please do not hesitate to send it to the JTS Team.
